Full Stack Web Developer Path

**San Diego State University,**

Bachelor Of Applied Sciences

Technical Theatre/Theatre Design  
& Technology

## Profile

As a **Web Developer & Content Integration Designer**, I create dynamic, visually aligned websites that bring design systems to life. I've dedicated much of my recent work to **WordPress development, collaborating with designers and translating Figma files** into responsive, brand-consistent experiences. My approach merges frontend precision with artistic intuition – grounded in tools like **Vue.js, Python, and React Native**.

I'm currently expanding my skillset into large language model ( LLM ) integration, exploring how AI and creativity intersect in the next wave of web development.

## Employment History

**Front End Developer, Self, New York City**

**2021 - Present**

- Built and deployed personal projects in **React, Vue, and React Native**, including theSugarStack ( React landing page ) and Ouça Boa Música (Vue project), showcasing skills in component architecture, responsive design, and dynamic content integration,
- Collaborated with a designer to translate a detailed Figma portfolio design into a fully functional WordPress site, optimizing for responsiveness and performance.

**Additional Experience**

**AI Output Evaluator – Outlier, New York City**

**2024 - Present**

- Assessed AI-generated responses for clarity, accuracy, and alignment with user intent to refine LLM output quality.

**Workshop Instructor (Contract) – Girl Develop It, New York City**

**2022 - 2023**

- Prepared and taught two-day Intro to CSS Animations workshops on Zoom, creating interactive CodePen exercises for learners.

**Art Department Coordinator (Freelance, IATSE USA Local 829) – Greater NY Area**

**2018 - 2020**

- Coordinated operations across 7 scripted tv / film productions, managing budgets, schedules, and logistics under tight deadlines.
- Cultivated partnerships with 20+ vendors, securing timely deliveries while navigating budget constraints.
